NIOAH WEBSTER says that "Temperance means restrained or moderate indulgence."

So carelessly has this word been applied by some of our fellow men that we have almost been stampeded into believing that temperance means total abstinence in the use of alcoholic beverages and a firm belief in the doctrine of PROHIBITION.

Temperance, according to Webster, must mean moderate indulgence in everything—Work or Play, Eating or Drinking—in short, in all the occupations and recreations of man.

Successful men succeed because they practise temperance. Temperance is a wonderful virtue. It denotes character of the highest quality. If you would find happiness, practise temperance—Work moderately, Play moderately, Eat moderately, Drink moderately.

Leading physicians have long recognized the food value of pure, wholesome Beer, and heartily recommend its moderate use as a medium of bodily nourishment and alimentary gratification.

is absolutely pure and when used in moderation is the ideal beverage of the temperate and the logical food drink of temperance. Its quality stands as a direct rebuttal of the theory that the best is only to be found in imported Beers. It is the product of hygienic brewing, careful filtering, proper aging, sanitary bottling and thorough pasteurization, making it a beverage that is unsurpassed by any Beer made anywhere.
